SUMMARY

Product Designer with 10+ years of experience designing responsive web and SaaS products. Skilled in user research, interaction design, and design systems, with a track record of improving usability, SEO performance, and conversion.

EXPERIENCE

Product Designer | AutoTrader (AutoScout24) Toronto, ON, Canada – *July 2022 - Present*

Experienced in delivering responsive, user-focused web experiences and managing high-volume updates for global automotive brands. Works closely with developers, product teams, and clients to ensure seamless execution, improved usability, and scalable design consistency.

Design & User Experience

- Create user-centered UI/UX designs using research, personas, and usability testing
- Design responsive, accessible websites and web applications across devices and browsers, adhering to WCAG 2.1 guidelines
- Develop user flows, wireframes, mockups, and interactive prototypes using Figma and Adobe XD

Collaboration & Delivery

- Partner with developers, product, and marketing teams to deliver seamless user experiences
- Align design solutions with business goals and ensure accurate implementation
- Manage multiple projects and timelines in an Agile/Scrum environment, participating in sprint planning, reviews, and stakeholder communications

---

Systems, Content & Optimization

- Maintain design consistency through brand guidelines and design systems
- Create digital assets for web, landing pages, email, and social media
- Conduct SEO audits and recommend performance improvements
- Manage monthly OEM updates for major automotive brands across 100+ dealer websites

---

Leadership

- Mentor junior designers and contribute to design reviews and best practices
- Collaborate with project managers on scope, priorities, and workflows

---

Web & SEO Lead | Web Designing Lab - *Feb 2019 – Jul 2022*

- Led end-to-end website projects from strategy to launch, improving usability and business outcomes
- Managed cross-functional teams and client relationships to deliver projects on time and within scope
- Drove SEO strategy, QA processes, and website performance, accessibility, and security standards
- Designed scalable UX solutions, wireframes, and systems for conversion-focused experiences

Senior UI/UX Designer | Web Designing Lab - *Nov 2014 – Feb 2019*

- Designed high-fidelity UI/UX solutions aligned with user needs, personas, and brand guidelines
- Created layouts, graphics, and prototypes using Photoshop and design tools
- Collaborated with developers to implement and refine website experiences

---

Senior Web Designer | Panacea Web Technologies - *Apr 2011 – Oct 2014*

- Designed user-focused, visually engaging websites aligned with client and business goals
- Ensured cross-browser compatibility, usability, and performance through testing and debugging
- Managed multiple design projects, delivering quality work within deadlines

---

Web & Print Designer | Media Expositions & Events - *Mar 2009 – Mar 2011*

- Supported design of websites, landing pages, and marketing collateral
- Created logos, graphics, and event materials based on client requirements
- Collaborated on design concepts and visual execution across digital and print
